It is solely your responsibility to ensure that you are using up-to-date documents and information.

This *market manual* may contain a summary of a particular *market rule*. Where provided, the summary has been used because of the length of the *market rule* itself. The reader should be aware; however, that where a *market rule* is applicable, the obligation that needs to be met is as stated in the “Market Rules”. To the extent of any discrepancy or inconsistency between the provisions of a particular *market rule* and the summary, the provision of the *market rule* shall govern.

1. Introduction

Market Rules may be amended through the *market rule* amendment process. If an amendment is approved it will be incorporated into the next revision, or Baseline, of the *market rules*. The Pending Changes page features all amendments that have been approved by the Board and will come into force at the next Baseline unless specified as otherwise. Market documents that require change will also be revised at this time.

1.1 Overview

This document describes the documents revised for the implementation of EDAC in advance of *IESO* Baseline 26.1 published on October 12, 2011 to the *IESO* Web site. It also lists the current title and issue number of all documents available on the *IESO* Rules and Manuals and Technical Interface web pages.

The majority of the *market manuals* in this baseline is structured into one of eight master documents:

1. “Market Entry, Maintenance and Exit”
2. “Market Administration”
3. “Metering”
4. “Operations”
5. “Settlements”
6. “Participant Technical Reference Manual”
7. “System Operations”
8. “Day Ahead Commitment Process”

Market manuals consolidate the procedures, standards and policies for an area of the market into one master document.

1.2 Conventions

The standard conventions followed are as follows:

- The word ‘shall’ denotes a mandatory requirement;
- Terms and acronyms used in this guide that are italicized have the meanings ascribed thereto in Chapter 11 of the “*market rules*”; and
- Double quotation marks are used to indicate titles of legislation, publications, forms and other documents.

– End of Section –

2. Baseline Changes

The highlights in section 2.2 are taken from the Baseline Plan that was posted for review and therefore do not have the standard conventions applied as per section 1.2.

This Baseline update may include:

- Amended *market rules*;
- New or amended *market manuals*;
- New or amended forms;
- New or amended guides;
- New or amended agreements;
- New or amended lists;
- Documents made obsolete;
- Documents that have been superseded
- Documents that are pending
- Documents that are deferred
- Documents that are withdrawn and
- Documents that remain in effect for a period of time.

2.1 Market Rule Amendments Approved by the IESO Board

Market Rule Amendment	Chapter Revised
MR-00348, EDAC – 24 Hour Optimization and 3-part Offers	7, 11, 7A
MR-00349, EDAC - Settlement Guarantees	9
