

IESO Communication on Standards – NERC 2007 Reliability Standards Workshops!

NERC is hosting **three reliability standards workshops** at different locations in the US – San Diego, Chicago, and Orlando. The workshops will be held during the **month of April** and will be beneficial to all market participants that will be impacted by how the industry operates under the new Electric Reliability Organization.

The **workshop objectives**, as outlined in the announcement are:

- Understand standards development and enforcement by the ERO and regional entities, with regulatory oversight;
- Understand ERO transitional steps and timeline, including when standards would become enforceable and when penalties would go into effect;
- Be knowledgeable of the existing and emerging standards that will become mandatory and how the standards will evolve to meet regulatory requirements under the ERO; and
- Understand how reliability standards will be coordinated with related wholesale electric business practices.

Please review the forwarded e-mail and let us know if you are planning to attend and which session you would be interested in. This will help us in deciding if IESO staff needs to be present for any of these sessions.

NERC Hosts Three Spring 2007 Reliability Standards Workshops

In April, NERC is offering three reliability standards workshops (San Diego, Chicago, and Orlando) to support the industry and provide a platform for dialog about how the industry will need to plan and operate under the new Electric Reliability Organization.

NERC will handle registration for the San Diego and Orlando workshops. TraidFair Group will handle registration for the pre-conference workshop in Chicago at the ELECTRIC POWER Conference and Exhibition.

Location, dates, registration, and agenda details are included in the workshop announcement. Please [click here](#) to see the workshop announcement. (ftp://www.nerc.com/pub/sys/all_updl/standards/announcements/Spring_Workshops_2007.pdf).

For questions regarding the Chicago workshop hosted by TraidFair Group, please contact:
