Subject: Review of IESO certification forms

RSSC Members,

In an effort to address some of the issues that were raised during the first RSSC meeting, the IESO is initiating a process to have RSSC members review and comment on its certification forms that are currently being developed for the IESO Reliability Compliance Program (IRCP). Market Participants use these certification forms to provide us with their compliance certifications to various NERC and NPCC standards and criteria.

Please review and provide any comments that you may have on (to RSP@ieso.ca):

1. NERC Reliability Standard **FAC-008: Facility Ratings Methodology**, located at: http://www.ieso.ca/imoweb/pubs/ircp/ieso/IESO-certification_form_1623-NERC-FAC-008.pdf
2. NERC Reliability Standard **FAC-009: Establish and Communicate Facility Ratings**, located at: http://www.ieso.ca/imoweb/pubs/ircp/ieso/IESO-certification_form_1624-NERC-FAC-009.pdf
3. NERC Reliability Standard **PRC-004: Protection System Performance**, located at: http://www.ieso.ca/imoweb/pubs/ircp/ieso/IESO-certification_form_1522-NERC-PRC-004.pdf

Additionally, all submissions made by the IESO in 2007 thus far, have been posted in their respective subject bins and can be reviewed at:

http://www.ieso.ca/imoweb/ircp/emerging_Reliability_Standards.asp

We are currently working on developing the agenda for the 2nd RSSC meeting and these would be sent out as soon as the agenda items are finalized. Thanks for your time and please let us know about any concerns or issues that you may have.

Regards,
