

FOMS Rollout and Cutover

Presentation to FOMS Working Group
January 19, 2007

- FOMS Roll out expected between Category 3 Releases
- IESO will support the current processes for some period
- MP will not see the benefits of FOMS until they cutover

- Submission of Dispatchable Load derates via Web UI or API to be done in a co-ordinated fashion
- Dispatchable Loads can begin using Web UI at any time to submit equipment outages
- Process control required for cutover
- IOMS API may be maintained for ~ 6 months
