

# Update on Wind Capacity Contribution (WCC)

Wind Power Standing Committee  
May 14, 2008 Khaqan Khan

- IESO is in a process of exploring additional WCC methods. In the meantime we will continue with using existing WCC (10%).
- We will continue to examine various other methodology options particularly any recommendations emerging from NERC IVGTF.
- We will inform you about the IESO decision and timeline for future developments via email notification.
