

## MR-00294 - UPDATE

RMSC Meeting  
November 16, 2005  
Richard Zaworski

- q **Amendment to the Market Rules to address the metering requirements for transmission station service loads supplied from a distribution system.**
- q **Amendment submission made by Hydro One Networks has been withdrawn**
  - Rule amendment would apply to very few transmission station service loads (8 at most).
  - Less administrative to simply install meters that comply with Chapter 6 requirements
- q **Feedback from affected host LDC's indicate preference for Chapter 6 metering**
- q **Amendment withdrawn at the November 8, 2005 Technical Panel meeting.**
