

# PSDB Transformer Data for SSLA Calculations

Revenue Metering Sub-Committee Meeting

May 10, 2006

# PSDB Data – Transformer Test records

---

- Meeting between IESO and Hydro One Jan 2005 – Agreed to consider use of PSDB where Test records are not available
- Hydro One initiated a search for paper test records to verify PSDB data. Search is complete
- Test sheets found are being verified with PSDB records. Results shown below

DESCRIPTION	TOTAL	# WITH TEST SHEETS	% WITH TEST SHEETS	# VERIFIED	% VERIFIED	% CORRECT
All Transformers	3535	2366	66.93	576	24.34	
Transformers used in SSLA calculations:	776	726	93.56	521	71.76	94.05

## PSDB Data – Transformer Test records

---

- Test Sheets for 50 transformers have not been found.
- Hydro One and IESO will work on an agreement of understanding to allow the use of PSDB data as an official source for SSLA calculations.
- Copies of Test Sheets found are available to MMPs
- Contact the Hydro One MSP by e-mail at:
